Death Well-known Winnifred Resident.

In the passing away on Wednesday morning of Mr. Christopherson, Winnifred loses one of its most popular and well-known business men. Together with his wife and his two small children Mr. Christopherson, conducted the prevailing business and although everything that kind friends and acquaintances could think was done yet it all was of no avail. His death is a big blow to the community and his place it will be extremely difficult to fill.

Deceased was a prominent Oddfellow and in the Lodge he was a valued and highly-respected brother. Other organizations which have claimed his time and attention include the Winnifred Agricultural Society and the School Board, in both of which he has displayed untiring zeal and energy. Indeed it is not too much to say that every organization in Winnifred will miss his loss acutely.

Deceased was a partner with Mr. Paul Behring and his well-known business integrity and promptitude in matters connected with the firm were well known.

What makes his death the more sad perhaps is the fact that his wife and two little children are also ill. To Mrs. Christopherson the blow will be heavier possibly by reason of the loss of her own brother, Minor T. Olson, a short time ago, and the hearts of all will go out to her in the deepest sympathy.

Deceased was 35 years of age. He returned a short time ago from a visit to his people in the States and on this account and owing to the difficulty of arriving here in time it is not expected that any of his relatives from the other side will be able to be present.

The funeral takes place to-day (Friday) from the Hurst funeral parlor, Wilmot, at two p.m., and in all probability will be conducted by the Winnifred Lodge of the L.O.O.P.

The interment will take place at Winnifred.

To the late John Christopherson

(Contributed)

If friends would look to-night,

My friends would look upon my quiet face

Before they laid it in its resting place,
And deem that death had left it at most fair;

And lay a snow-white flower against my brow.

Would smooth it down with tearful tenderness

And fold my hands with lingering care,

Fond hands—so empty and so cold to-night.

If I should die tonight,

My friends would call to mind with loving thoughts,

Some kindly deeds the ley hands had wrought,

Some gentle words the frozen lip had said,

Even on which the willing hand had sped.

Think gently of me, I am travelled worn:

What a welcome rest is mine I shall not need

The tenderness for which I long to night.

No Passports Necessary Now

Ottawa, Nov. 19.—On May 24, 1917, with the object of preventing an exodus from Canada of persons likely to be affected by the Military Service Act, the government passed a regulation providing that males between 18 and 45 desiring to leave the country must secure a passport authorizing their departure. As this regulation imposed some hardship on the travelling public and as the conclusion of hostilities seems to render unnecessary the further protection of the regulation, the government has rescinded its ruling and people are now as free to leave the Dominion as they were before the outbreak of the war.

Correspondence.

(The Editor does not hold himself responsible for the views expressed by any correspondent.)

TO THE ELECTORS OF BOW ISLAND.

Ladies and Gentlemen.—You no doubt have read in last Council report that I resigned my seat as a protest against the action of the Council in discontinuing the privilege the town has enjoyed of giving gas free to the families of men overseas, or rather of discriminating against the one family that has paid the supreme price by loss of husband and father. I do not believe that the majority of our citizens, very few, have forgotten their duty to those "who sleep on Flander's fields," and when the Council showed me plainly that they were determined to carry through their action I considered it my duty to resign in order to place myself on record. I believe that citizens will approve of my course and that pressure from the ratepayers will force the Council to do the right.

Yours faithfully,

T. H. Blaine.

Mask Order is Cancelled.

All provincial regulations and restrictions with respect to the influenza epidemic will be withdrawn in Southern Alberta on Thursday morning, November 21st, according to word received from Hon. A. G. Mackay, minister of public health.

This means that the wearing of masks will not be compulsory after Thursday morning, that schools which are under the jurisdiction of no local board of health may be reopened, and that the ban is lifted on public auction sales. So far as the ban on the use of public schools is concerned, when there is a local board of health, that board will full jurisdiction to lift the ban when the board sees fit.—Lethbridge Herald.

Winnifred.

Alex. Smith is reported convalescent from an attack of influenza.

Mrs. M. J. Collins gave a dinner on November 10th to commemorate her 36th birthday. Plates were laid for six.

Mrs. and Mrs. Jas. Larsen have returned from Grassy Lake after an absence of ten days.

Miss Dulmase, former school teacher at Winnifred, has been visiting friends in Winnifred for a few days.

The family of Milo Scott is reported to be gradually recovering from a long spell of influenza.

Frank R. Hills returned from the Bow Island hospital and is able to attend to business. His father came from Foothills to his assistance, taking charge of the Imperial Oil Co. and elevator which Frank Hills is manager of.

Nels Hanson and Miss Ida Raesamus, as returned from Brantford, N.D., on Monday, when they were informed of Mr. Hanson's sister of the death of her husband, Miss Raesamus' father.

Mrs. I. C. Freeman, president of the U.F.W.A., and members packed boxes on November 12th to send the boxes overseas for Christmas.

Over 150,000 members of the Canadian expeditionary force have expressed the definite wish to take up farming in Canada after the war. Of this number 23,072 will come to Alberta.

Victory Loan.

None of the most sanguine estimates of the success of the 1918 Victory Loan came anywhere near the realization.

In the three weeks three Canadas subscribed the great sum of \$670,047, which means that the loan is oversubscribed by more than 55 per cent.

The task set the Loan canvassers throughout the Dominion was to raise \$300,000,000, with \$830,000,000 as the target.

Bow Island did well, much better than most of us expected. The total sum raised in the district amounts to \$412,000.

We congratulate the chairman and secretary (Jas. Reid and R. S. Beattie).

(Continued on page four.)

What the Germans Hated to Leave Behind

Wine Worth Millions in Cellars of
Rhine

"According to calculated estimates of the firms engaged in the trade, the value of the 100,000 bottles of champagne in the cellar of the Rhine, the total value of which is anything up to \$10,000,000."

"Very little champagne is now being sent out of France, the necessities of the war having made it almost impossible to send supplies to England or anywhere else. Some of the firms have sent out their stocks forwarded to them a consignment of three or four hundred cases, by canal, via the Rhine."

"At the present time it is impossible for the trade to fulfill anything like the demand of the English buyers. There are thousands of cases on order, without prospect of delivery in the near future."

"Many of the champagne firms in Rhine have already removed part of their stocks to England. The port difficulties prevent anything like a general removal of the 600,000 cases of champagne which are underneath the old cathedral town."

Up Against It

"Mummy, when I grow up shall I marry a man like father?"

"And if I don't marry, shall I grow up like auntie?"

"Well, I suppose you will."

"Well—I am in a fix!"—Border Cities Star.

The Straight and Narrow Southern Parson (to a country boy)

"I'm not in a narrow path now, Sam?"

"Sam! I reckon I kin, paision, if you all go to the straight and narrow road long de road—Boston Transcript."

YES! LIFT A CORN OFF WITHOUT PAIN!

Cincinnati men tell how to dry up a corn or calus so it lifts off with fingers.

Very corn-pestered men and women need suffer no longer. Wear the shoes that nearly killed you before, says this Cincinnati doctor, and here's a diet of freemeone applied directly to a tender, aching corn or calus, and it will lift off with fingers.

For corns or hardened calus loosens so it can be lifted off, root and all, with just a small bottle of freemeone, costs very little at any drug store, will not burn, will not irritate, and will not cause any pain.

If your druggist hasn't any freemeone tell him to get a small bottle for you. It is a safe, non-irritating, non-sting stuff and acts like a charm every time.

After Prison, Freedom

French Overjoyed When British
Enter Town

When the British soldiers arrived French towns they were told many strange stories. For instance, one British soldier told a Frenchman he told him how he managed to secure a gas mask for his mother, and how they had to go into the basement in the darkness of their underground retreat, fearing that the last noise might bring the Germans to their door, and go above. They could hear the tramp of German infantry and the rumble of tanks, and the roar down the street towards Ruanneux. Then there was a long silence. The next morning the Frenchmen could fresh air. A few weary soldiers were struggling through the village. One of them, a Frenchman, had been captured by the Germans and he accused the cheapskate with a sense of surprise.

"You ought to be out of prison," he said. "Don't you know the English are here?"

"When?" asked the Frenchman eagerly.

"A week ago," replied the other. "I am going now."

"Then I must go and pay my respects to the English," he said.

"Hurrah," said the soldier, "or they will catch you."

He was shouting, but had saved the Frenchman from a dreadful fate, the soldier moved away. And the others, who went for joy. A little while later they walked boldly down the street, shouting and cheering, their gay figures in khaki coming warily through the harvested fields. They had been prisoners—now they called the "Battle of Dombi" in 1914.

The Proven Asthma Remedy. Since asthma exalted there has been no let up in the demand for it. Since they have proved short lived and worthless. The ever-growing reputation of Dr. Harry Lauder's Remedy has given it a place in the field of medicine which no other can fill. It is a safe, safe, safe, and can be used by systematic methods. It has simply gone on effecting relief and making new converts.

Oil Storage Tanks Now Being Built

Comumption of Oil on the Canadian Prairie Farms Is Increasing

The agricultural development of Western Canada is calling for an increasing consumption of oil among the horses and men. To conserve the oil, the last-named, the two first-named are being urged to make any diminution in the use of horse power on the farms, considerably. The consumption of oil on the Canadian prairie farms is increasing rapidly. In the last two years have seen numbers of oil tanks springing up all over the country, and the consumption of oil on the prairie farms is increasing rapidly. At present time twenty-three storage tanks in course of construction at country points.

A Real Diplomat

The boss called the typist to his room.

"Miss Keytar, you are a very pretty young woman."

"You dress neatly and you have a well modulated voice. I might add that your handwriting is also above reproach."

"You couldn't pay me so many compliments."

"I only want to put you in a secret friend of mine," said the boss, "before closing up the number of your spelling and punctuation."

French Display New Vigor Armies of Peasants Show No Signs of War Weariness

The French army never grows old. It shows its eternal vitality. One of the many divisions proving this is the 100th, which is a division whose general wears upon his breast the war cross and ribbon with eleven palm leaves and twelve battle or citations. One of its recently organized regiments composed of natives of the Pyrenees, the 100th, second citation, its souvate regiment a seventh citation, and the galion fortillery and engineering units have also been cited several times.

One of the most brilliant regiments is the 100th, which has not been given this magnificent division. After having engaged in nine battles, it was given the citation of August 20, when it attacked with General Mangin's army towards Mouzon. Four regiments, including more than fourteen kilometers (8.6 miles) in 48 hours, capturing more than 1,000 prisoners, and then assaulting the Germans in Crecy-a-Mont, where they had been holding out for 14 days, after crossing the Ailette and storming several fortifications.

The 100th division was attached to the 4th army, where it was charged with the task of capturing the fort of Meusel, crisscrossed with trenches and burrows with shotted that even the most experienced soldiers have not been able to find.

The division plan was such that the Germans were overwhelmed. Before the 100th division had been sent to the front of the assault, the Germans had overcome their sufferings, and have been given the 100th division the "Favore's Prescription." Said Dr. Favore's Prescription. Said by druggists in liquid or tablet.

mation as to whereabouts gladly
received and reward offered for
any recovery. Notify—Box 156, Bow
Island, Alta.

Wanted to Rent.

Half section of farm land, im-
proved. Terms to be arranged. Ap-
ply—Jorgen Hestand, Wimunifred.

JOSEPH SMITH DEAD.

Salt Lake City, Utah, Nov. 19.—
Joseph E. Smith, president of the
Church of Jesus Christ of Latter Day
Saints (Mormons), died at his home
early today, after a long illness.

Death was due indirectly to a par-
alytic stroke suffered last April. Not
withstanding his illness, President
Smith attended the conference of the
church, held the first week of October.
He spoke strongly against plural mar-
riages, which it was rumored had
been performed during the last few
years.

**U. S. PRISONERS
ARE RELEASED**

Paris, Nov. 14.—More than 2,322
American prisoners in German camps
were released immediately by the
signing of the German armistice, ac-
cording to the latest figures prepared
by the American Red Cross in Swit-
zerland.

The number includes all the Amer-
icans captured to Nov. 1. It is estim-
ated that only a few hundred more were
captured after that date.

**CARRYING OUT
ARMISTICE TERMS**

London, Nov. 14.—(British wireless
service)—Communications have been
advanced to the German authorities
given directions for German delegates
in conformity with the armistice con-
ditions, to present themselves to the
King of the Belgians and also to the
President of the Inter-allied commis-
sion of railways in the field and the
President of the inter-allied commis-
sion of navigation on Nov. 16 at Nancy
to receive instructions regarding the
question of railways, navigation and
telegraphs.

ing insertion.

**CO-OPERATE WITH THE
HEALTH BOARD.**

There is a tendency in some
quarters to exaggerate the extent
of the inroads of Spanish
influenza in this district.
There is a tendency, in other
quarters, to minimise the seriousness
of the epidemic. Both
tendencies should be curbed,
but the only effect to be
attained by following either
course is to hamper and
embarrass the work of the Local
Boards of Health.

Our residents can well afford
to continue their confidence
in one medical health
officer, and to co-operate with
him in the efforts he is making
to restrict the spread of
the disease and to eventually
stamp it out.

Many people are suffering
business hardships; many
have been thrust face to face
with other problems; a greater
number have been put to
some personal inconvenience
and deprived of the opportunities
for gratifying their desires
for amusement or for attending
meetings designed to advance
public welfare. No
good, however, can be done by
unduly chafing under the
ban, nor by disregarding its
provisions until the health auth-
orities say the word.

Our district has had a more
restricted spread and a lower
death rate than most of the other
districts in Alberta which have been attacked by
the scourge, and public opinion
attributes this favorable
position to the prompt pre-
cautions of the Local Health
Boards. It is a matter for
regret that such precautions
became necessary, but our
readers can rest fully assured that
the ban will be lifted the
moment it is safe to lift it. In
the meantime, patience and
co-operation with the health
authorities, and personal ap-
plication of their advice will
be the best means toward the
elimination of the evil.

Those who suffer most
keenly from the imposition of the
ban have accorded our
local medical health officer
and his assistants a most com-
mendable degree of co-operation.
It is not for the general
public to lag.

**U. S. CITIZENS
NEED NOT REPORT.**

American Consular Agent Matt
Johnston has received word from
Washington to the effect that Amer-
icans in Canada who have been called
to report at the various U. S. training
camps this month need not report.
Men under the age of 30 who have received ques-
tions may need not fill them out. Men
under 30 receiving questionnaires
however are required to complete and return them, as the government
wishes to get data on the military strength
of the country.

Burdett.

Birth—On Tuesday, November 19th, at Lethbridge, to Mr. and Mrs. Robt. G. Burdett, a son.

Jack Burdett is having a
handsome little residence erected
on the east end of the town.
This indicates that Jack is per-
fectedly satisfied with his present
location and intends to make
Burdett his permanent home.
Confidence of this sort in the
town is very encouraging.

Falin Perry has rented the
McKay residence in the town and
will move in for the winter.

Falin Perry has rented the
McKay residence in the town and
will move in for the winter.

We are glad to see A. H. Rygg back in the store this
week. Although his late opera-
tion has necessarily affected
his strength to some extent, it
is gratifying to learn that he is
gradually getting over it.

A petition is being circulated
this week for the purpose of
getting the signatures of the
citizens to a document the
object of which is to get a res-
taurant doctor. Burdett here-
fore has been compelled to de-
pend for medical service upon
a physician in Lethbridge, and although this
has proved satisfactory to the resi-
dents it would be to their ad-
vantage to have a medical man resi-
dent in their midst. Hence the
present signature.

Andy Rutherford has severed
his connection with the Dailey
Co., north of town, and in part-
nership with Joe Strakas, manager of Geo. Lomas' ranch
has started a sheep ranch on
the river. Whitney Foster has
been engaged as manager. Mr.
Rutherford is leaving shortly
for his old home in Scotland
for the purpose of purchasing some pure-bred stock to be
placed on his ranch here.

Drilling has been completed
at the Gas Co.'s well No. 23 north
of town.

Drilling has been completed
at the Gas Co.'s well No. 23 north
of town.

The "Life-Like" Phonograph

When we have placed a New Edison
Diamond Amberola in your home, put
your favorite record on the phonograph,
and then stand with your back to the
instrument as the melody flows out.

The illusion is perfect. You almost feel that
someone is in the room singing or playing—so "life-
like" is the reproduction.

**The NEW EDISON
DIAMOND AMBEROLA
and AMBEROL RECORDS**

are Mr. Edison's final achievement in instruments and
records of this type. Enjoy them to your heart's
content by taking advantage of

Our Free Trial Offer.

Come in and select any
instrument you like—we'll send
it to your home with 12 of the
finest Amberol Records you
ever heard. Keep this outfit a
week—play it to your heart's
content.

If you decide to keep it, we
will arrange convenient terms if
you like this method of payment.

Blaine Drug & Book Co., Bow Island, Alta.

of town. It is understood that
a flow of eight million feet
has been obtained.

of our local Customs agent W.

J. Elliott, who leaves this week
for Calgary. Mr. Elliott who is
superseded here by W. B. Min-
hinnick, leaves with the good
wishes of all coupled with a sin-
cere desire for his future suc-
cess.

Falin Perry leaves this week to
spend the winter at the coast.

An up-to-date furnace has
been installed in the L. D. S.
church and everything is now
apparently ready for the com-
mencement of services. These
will start just as soon as the
present restrictions in connection
with the influenza are re-
moved.

A. W. Fletcher was in Leth-
bridge for several days last
week.

Alex Hamilton is touring the
country and inspecting the dif-
ferent post-offices this week in
company with an inspector from
Calgary.

Although the town itself is
clear of the flu, several cases
have been brought in from the
country for treatment.

Birth—To Mr. and Mrs. W. D.
Anderson, at Burdett, on Nov.
11th, a son, Donald Delford,
weight 8 lbs.—Lethbridge Herald.

Bow Island

Local and General.

The Town Council have had under consideration during the past few days the matter of the water well and it is understood that the water will probably be diverted into the main pipe along Main Street and connected up with a watering trough somewhere near Lethbridge Avenue. A smaller trough will be erected near the source of supply.

Judging by the number of names placed before the Bovisian Council Friday last in Bow Island the privilege of having a vote doesn't seem to weigh very much with some of our property-owners. Only four names were submitted, and these were as follows:—Harriet S. Johnston, A. Gregoire, John McCarter and Edward Beams.

The annual meeting of the ratemakers should have been held on Monday evening next, but the combined influence of the epidemic and the Local Board of Health has rendered this impossible. Possibly the City Fathers and the School Board are not altogether averse to this procedure. Those of our population, however, who are in the habit of looking forward to a little excitement at these annual functions will probably view it as "another opportunity lost."

Residents living in the western suburbs who were fearing an inundation had no little fears considerably allayed since Friday last.

Corpl. T. Drinkwater of Macleod, brother to Mrs. L. M. Cullen of Bow Island is reported wounded.

According to a report reaching his brothers here, Jack Hoaglin was wounded and passed just before the announcement of peace.

Birth—On Monday November the 18th, to Dr. and Mrs. Baines, a daughter.

Death—Paterson returned with his brother to Lumsden, Sask. on Tuesday, and will probably remain there for a time.

Following the disporting report issued by the liquor inspector at Edmonton, it was decided in Alberta to hold the celebration of peace under a more favorable opportunity.

Our little weekly movies will probably be appreciated after the enforced inaction.

The prospect of the immediate homecoming of some of the boys from the front opens up the matter of re-ceiving them. Our soldiers have endured enough and suffered enough to warrant every town and city giving them all honor and attention possible. Committees and arrangements

should now be completed for this to be done, so that no place may have the stigma cast upon it of having neglected its duty in this respect.

An important announcement awaits your consideration on this page.

Mrs. Ludtke received word this week that her nephew, Ernest Kennedy, (well-known to many here) has been selected for the Siberian expeditionary force.

Mrs. W. J. Oliver returned with her little girl last week from Medicine Hat.

Mr. and Mrs. Roy MacGregor, who have been suffering of the "flu" at Bow Island's temporary hospital, were discharged this week, both of them, we are happy to say, having pretty well recovered.

Last week Bow Island was congratulating itself upon the fact that the influenza was getting less deadly, and then on Sunday five fresh cases were brought in to be treated. Obviously liberties cannot be taken as yet with this unbroken visitor.

All Hobson returned from Vancouver on Monday and reports his mother much better. Mrs. Hobson will remain at the coast a while longer. An evidence of the danger of holding meetings just now, Mr. Hobson cites the fact that Vancouver was getting nicely clear of the epidemic until the celebration of peace. The next day there were over a hundred new cases and they have since increased.

Mrs. P. O. McKenna received word this week that her youngest brother Jack Gillis, has been awarded the military cross for bravery. He went out with his unit from Nova Scotia in the spring of 1917 and since that time has spent six months in hospital suffering from wounds received in action. The distinguished military award with which he is now decorated was made on October 12th.

Amidst the tottering of thrones such an insignificant thing as the disorganization of a school district would ordinarily be ignored, but the frequency of them these days would appear to indicate that our consolidated school system is not such a huge success as some would lead us to believe. The latest to suffer the banner of dis-credit is the consolidated school district at Daysland.

And the worst is yet to come.

Mrs. R. S. Beattie was called to Calgary on Thursday by the illness of her mother.

A full stock of Automobile Accessories, Parts, Tires, Oils, Greases, etc., will be on hand at all times.

No effort will be spared to give customers every possible service and satisfaction on their cars.

City Service Garage

A. E. TUNSTALL, Prop.
Free-Air Station. Lethbridge Ave.

A letter received by his parents this week states that Private A. S. DePew of the 50th Batt., was killed on October 10th by the bursting of a shell whilst on patrol duty. His officers speak highly of him and the writer of the letter states Private DePew's death was keenly regretted by his comrades, with all of whom he was extremely popular.
